

Moving Your My Content Folder to a Different Computer

If you are going to be connecting a different computer to your SMART Board check if there is anything saved to the **My Content** folder in the SMART Gallery area. If so, please export your files to save your lessons and work:

- Right click on **My Content** and choose **Export**

- Navigate to your H drive to **Save** the file.

On the new computer, the SMART Board software must be installed

- Open your H drive and click and drag the *My Content/gallery file* to your desktop
- Double click on this icon to reinstall your content
