Sums & Snowmen

Math Skill: Reinforce addition facts through 12.

Materials: Game Board
Two regular dice
Crayon or pencil

Players: Two

Procedure:

1. The players take turns throwing two dice, adding together the two numbers showing and then crossing out that sum on their list of numbers.
2. If a player throws a number (s)he has crossed out, (s)he does not get another turn, but passes the dice to the other player
3. Anyone who throws a **seven** must draw the bottom two snowballs to complete a snowman
4. The winner is the first player to cross out all the numbers before (s)he has had to draw seven snowmen!
