

Kent-Meridian Technology Academy (KMTA) is a choice program offered to all Kent School District students. While the program is offered at Kent-Meridian High School, students from any middle school in the district can apply to attend. KMTA offers a unique learning environment focused on project-based learning, technology application, student-focused scheduling and small learning communities. Our program is based on strong and supportive relationships between students and teachers.

 <p>Project-Based Learning</p> <p>A core principle of KMTA education is to teach through problem-based, real-world projects as often as possible.</p>	 <p>Cross-Curricular Projects</p> <p>Cross curricular learning allows students to do projects that are no longer separated by class-subject boundaries.</p>	 <p>Student-Focused Schedule</p> <p>Personalized Learning Time (PLT) is built into each school day. Students choose which subject, class or project they need to spend extra time on.</p>	 <p>Small Learning Communities</p> <p>Students will share many of their classes with the same groups of students, creating opportunities to build strong relationships with peers and teachers.</p>
